Autore	Pellat Ghislaine
Titolo	Data-Centric Business and Applications : How a Business and Territorial Approach Can Challenge the Crises in Europe? // edited by Ghislaine Pellat, Žaneta Lacová, Marian Šuplata
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	3-031-95068-2
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (482 pages)
Collana	Lecture Notes on Data Engineering and Communications Technologies, , 2367-4520 ; ; 258
Altri autori (Persone)	LacováŽaneta SuplataMarian
Disciplina	658.05
Soggetti	Computational intelligence Engineering - Data processing Cooperating objects (Computer systems) Computational Intelligence Data Engineering Cyber-Physical Systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The ERECO #European #Research #Community is an established network in interdisciplinary European research, bringing together 133 academics from 33 universities across the continent. Since 1994, ERECO has fostered a unique environment where economics, business, governance, technology, and culture meet to address the major transformations shaping Europe today. Driven by a belief that crises are moments for opportunity rather than decline, ERECO's researches offer forward-looking analyses on innovation, sustainability, regional resilience, and the future of work. Their collective expertise supports universities, public institutions, and businesses seeking to understand and anticipate Europe's next challenges. At a time when adaptability and vision are more critical than ever, ERECO positions itself as a strategic partner for those who aim to build a more resilient, inclusive, and future-ready Europe.
