Edizione	[1st ed.]
Descrizione fisica	1 online resource (90 pages)
Altri autori (Persone)	EllemersNaomi
Soggetti	Social norms Compliance
Lingua di pubblicazione	Olandese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book explores the influence of social norms on the importance of rule compliance and the cognitive processes involved in compliant and transgressive behaviors. Authored by Dr. Félice van Nunspeet and Prof. Dr. Naomi Ellemers, it documents findings from three studies that show how social norms impact individuals' perceptions of rule importance and cognitive processing during compliance or transgression. The research highlights the significance of understanding social norms in shaping behavior, particularly in demanding situations, and the implications for the effectiveness of regulatory enforcement. The work aims to contribute to the body of knowledge on the mechanisms underlying rule compliance and offers insights into how governmental bodies can influence such behaviors. It is intended for scholars, policymakers, and practitioners interested in regulation, compliance, and social psychology.

	Nota di contenuto	Assessing the Impact of 5G Technology on Business Operations -- The Influence of Sustainable Marketing on Supply Chain Transparency: A Review -- AN ASSESSMENT OF THE FACTORS INFLUENCING EMPLOYEE RETENTION -- Character Recognition of ancient language (MODI script) -- EVALUATE THE FACTORS THAT INFLUENCE AN EMPLOYEE'S DECISION TO EXIT A COMPANY CONCERNING THE HEALTHCARE INDUSTRY -- Dialect Classification for Hindi and Bhojpuri Language -- NetMonitor: A Real-Time Network Analysis Tool with Packet Capture, Resource Monitoring, and Anomaly Detection -- Case summarization using LLM model for Supreme Court judgments of an Indian judiciary system -- Unveiling Cryptocurrency Fraud: Leveraging Graph Attention Networks for Enhanced Detection in Bitcoin Transactions -- Etc.

Sommario/riassunto   This book contains best selected research papers presented at ICTCS 2024: Ninth International Conference on Information and Communication Technology for Competitive Strategies. The conference will be held in Jaipur, India during 19 – 21 December 2024. The book covers state-of-the-art as well as emerging topics pertaining to ICT and effective strategies for its implementation for engineering and managerial applications. This book contains papers mainly focused on ICT for computation, algorithms and data analytics and IT security. The work is presented in ten volumes.
