

1. Record Nr.	UNINA9911021977703321
Autore	Ashwani Kumar
Titolo	Thermal Battery Management System for Hybrid and Electric Vehicles
Pubbl/distr/stampa	Newark : , : John Wiley & Sons, Incorporated, , 2025 ©2025
ISBN	1-394-28923-5 1-394-28922-7
Edizione	[1st ed.]
Descrizione fisica	1 online resource (419 pages)
Altri autori (Persone)	AwasthiMukesh Kumar DuttNitesh SinglaYogesh Kumar ThangavelSivasakthivel
Disciplina	629.25024
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Thermal Battery Management System for Hybrid and Electric Vehicles is essential for anyone seeking to understand the cutting-edge advancements and challenges in battery thermal management, providing valuable insights that drive innovation and improve the performance of electric and hybrid vehicles.
