Sommario/riassunto	This book constitutes the refereed proceedings of the 8th International Conference on Independent Component Analysis and Signal Separation,

ICA 2009, held in Paraty, Brazil, in March 2009. The 97 revised papers presented were carefully reviewed and selected from 137 submissions. The papers are organized in topical sections on theory, algorithms and architectures, biomedical applications, image processing, speech and audio processing, other applications, as well as a special session on evaluation.

Note generali	Description based upon print version of record.
Sommario/riassunto	Using Fritz Perls as an example, this book recalls the representatives of an urban avant-garde culture who were driven out of Europe, emigrated, and for the most part found a new homeland in the USA. Many an element of the lost avant-garde spirit later found its way back to Europe in an enriched form. This monograph is the first to focus in greater depth on the German-European roots of Gestalt therapy. It thereby bridges the continents at the same time.
