

1. Record Nr.	UNINA9911026031103321
Autore	Silverman Bart W
Titolo	Modern Implant Dentistry
Pubbl/distr/stampa	Batavia : , : Quintessence Publishing Company, Incorporated, , 2023 ©2023
ISBN	9781647241810 1647241812 9781647241827 1647241820
Edizione	[1st ed.]
Descrizione fisica	1 online resource (474 pages)
Altri autori (Persone)	MironRichard J
Disciplina	617.6/93
Soggetti	Dental Implantation - methods Dental Implants
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	MODERN IMPLANT DENTISTRY Edited by Bart W. Silverman and Richard J. Miron -- Frontmatter -- Library of Congress Cataloging-in-Publication Data -- CONTENTS -- PREFACE -- CONTRIBUTORS -- CHAPTER 1: BONE METABOLISM AROUND DENTAL IMPLANTS -- SUMMARY -- Bone Cells: Osteoclasts,Osteoblasts, and Osteocytes -- Fracture Healing and Graft Consolidation -- Role of Osteocytes and Bone Lining Cells in Bone Remodeling -- Role of Macrophages in Bone Regeneration, Implant Osseointegration, and Breakdown -- Bone Remodeling Around Dental Implants -- Effect of Excess Implant Torque on Bone Healing -- Factors Affecting Bone Metabolism -- Conclusion -- References -- CHAPTER 2: VITAMIN D DEFICIENCY AND EARLY IMPLANT FAILURE -- SUMMARY -- Understanding Foreign Body Reactionsand Health -- Understanding Vitamin Dand Its Optimal Levels -- Dental-Related Complications Associated with Vitamin D Deficiency -- Testing Vitamin D Levels -- Supplemental Recovery Program: The Science Behind Dental Healing -- Antioxidants and Their Role in Wound Healing -- Necessary Vitamins and Minerals for Healing and Recovery -- Case Report of Implant Failure as a Suspected Result of Vitamin D Deficiency -- Patient Testing and Supplementation -- Conclusion --

References -- CHAPTER 3: REGENERATIVE PROPERTIES OF BONEGRAFTING MATERIALS: A COMPARISON BETWEEN AUTOGRAFTS, ALLOGRAFTS, XENOGRAFTS, AND ALLOPLASTS -- SUMMARY -- Bone Regeneration -- Autogenous Bone -- Allografts -- Xenografts -- Alloplasts -- Proportional Use of Bone Grafting Materials -- Regenerative Properties of Autografts, Allografts, Xenografts, and Synthetic Alloplasts -- Use of Bone Grafts in Various Clinical Applications -- Future Research in Bone Grafting -- Conclusion -- References -- CHAPTER 4: MEDICAL CONSIDERATIONS FOR DENTAL IMPLANT PLACEMENT -- SUMMARY -- Anatomy -- Surgical Workup -- Evaluation of Medical History. Clinical Examination -- Conclusion -- References -- CHAPTER 5: MEDIA DOCUMENTATION FOR IMPLANT PROCEDURES -- Five Reasons to Take Visual Records -- Cameras, Lenses, Flashes, and Tools -- Positioning and Photographic Series -- Media Processing, Storage, and Organization -- Conclusion -- CHAPTER 6: DIAGNOSTIC IMAGING FOR DENTAL IMPLANT TREATMENT -- SUMMARY -- Implant Imaging Techniques -- CBCT for Pre-implant Evaluation -- Postoperative Dental Implant Assessment -- Conclusion -- References -- CHAPTER 7: DIAGNOSIS AND TREATMENT PLANNING FOR DENTAL IMPLANT PLACEMENT -- SUMMARY -- Obtaining a Medical and Dental History -- Oral Evaluation of the Patient -- Radiographic Imaging, Interpretation, and Planning -- Classification of Available Bone -- Placing Implants in the Posterior Maxilla -- Interactive Planning Software -- Prosthetic Treatment Options -- Formulating Treatment Plans -- Conclusion -- References -- CHAPTER 8: GUIDED SURGERY -- SUMMARY -- Surgical Guides -- Soft Tissue-Supported Guides -- Rigid Guides -- Advantages of Guided Surgery -- Disadvantages of Guided Surgery -- Types of Guides -- How to Create a Surgical Guide in Software -- Future of Guided Surgery: Dynamic Navigation -- Conclusion -- References -- CHAPTER 9: SOCKET PRESERVATION AND GRAFTING -- SUMMARY -- Rationale for Socket Grafting -- Classification of Extraction Sockets -- Simple Socket Surgery -- Wound Healing -- Surgical Procedure for Socket Grafting -- Clinical Case -- Instrumentation -- Raising a Buccal Flap -- Conclusion -- References -- CHAPTER 10: USE OF PLATELET-RICH FIBRIN IMPLANT DENTISTRY -- SUMMARY -- The Evolution of Platelet Concentrates -- Horizontal Centrifugation -- CLINICAL USES OF PRF -- PRF in Extraction Site Management -- PRF for Guided Bone Regeneration -- PRF for Sinus Grafting Procedures -- PRF in Implant Dentistry -- Discussion and Future Research. Conclusion -- References -- CHAPTER 11: A PREDICTABLE METHOD FOR DENTAL IMPLANT PLACEMENT -- SUMMARY -- Anatomical Consideration -- Surgical Incision -- Drilling Procedure -- Implant Placement -- Soft Tissue Adaptation -- Postoperative Care -- Conclusion -- References -- CHAPTER 12: IMMEDIATE IMPLANT PLACEMENT -- SUMMARY -- Presurgical Evaluation for the Immediate Implant -- Immediate Implant Approaches for Anterior and Premolar Teeth -- Immediate Implants for Molars -- Complications Commonly Associated with Immediate Implants -- Step-by-Step Immediate Implant Procedure -- Conclusion -- References -- CHAPTER 13: IMPLANT PLACEMENT IN THE ESTHETIC ZONE -- SUMMARY -- Restorative Considerations -- Soft Tissue Considerations -- Osseous Morphology -- Implant Positioning -- Immediate Implant Placement and Loading -- Restorative Material Considerations -- Multiple Missing Teeth -- Conclusion -- References -- CHAPTER 14: RADIOLOGIC CONSIDERATIONS FOR MAXILLARY SINUS FLOOR BONE AUGMENTATION -- SUMMARY -- Imaging in Implant Dentistry: Posterior Maxilla and Maxillary Sinus -- Anatomy of the Maxillary Sinus and Its Variations --

Related Sinus Pathology -- Post Sinus Floor Augmentation and Implant Placement Imaging -- Conclusion -- References -- CHAPTER 15: INTERNAL SINUS ELEVATION -- SUMMARY -- Bony Anatomy -- Blood Supply -- Nerve Supply and Sinus Membrane -- Radiographic Evaluation of the Maxillary Sinus for Augmentation -- Sinus Consensus Conference -- Techniques for Internal Sinus Augmentation -- Graft Materials -- Sinus Elevation Complications -- Conclusion -- References -- CHAPTER 16: MAXILLARY SINUS GRAFT AUGMENTATION VIA LATERAL WINDOW -- SUMMARY -- Sinus Assessment -- Residual Bone Height and Classification of Sinus Defects -- Anatomy of the Maxillary Sinus -- Lateral Augmentation Technique -- Sinus Elevation Complications -- Conclusion -- References.

CHAPTER 17: FUNDAMENTALS OF ALL-ON-X TREATMENT -- SUMMARY -- All-on-X Treatment Planning -- Planning for Surgery -- Restorative Phase of All-on-X Treatment -- Conclusion -- References -- CHAPTER 18: FULLY GUIDED FULL-ARCH SURGERY AND PROSTHETICS -- SUMMARY -- Rationale for Guided Surgery -- The Digital Workflow -- The Digitally Derived Treatment Plan -- Surgical Visit -- Conclusion -- References -- CHAPTER 19: PROSTHETIC OPTIONS IN IMPLANT DENTISTRY -- SUMMARY -- Prosthetic Options -- Implant Impressions -- Conclusion -- References -- CHAPTER 20: PROSTHODONTIC CONSIDERATIONS FOR FULL-ARCH RESTORATIONS -- SUMMARY -- Classification of Full-Arch Implant Restorations -- Implant Prosthetic Terminology -- Dental Materials Used in Full-Arch Implant Restorations -- Critical Prosthodontic Concepts -- Treatment Plan Process -- References -- CHAPTER 21: ABUTMENT SELECTION AND PROSTHETIC OPTIONS FOR FIXED RESTORATIONS -- SUMMARY -- Triad of Abutment Selection Criteria for a Successful Restoration -- Restorative Factors to Consider During Abutment Selection -- Clinical Guidelines for Abutment Selection -- Case Reviews -- Conclusion -- References -- CHAPTER 22: IMPLANT OVERDENTURES -- SUMMARY -- Maxillary Overdentures -- Mandibular Overdentures -- Treatment Planning -- Maintenance of the Overdenture -- Conclusion -- References -- CHAPTER 23: ACHIEVING OPTIMAL SOFT TISSUE OUTCOMES -- SUMMARY -- Types of Soft Tissue Grafts -- Timing of Soft Tissue Grafting -- Conclusion -- References -- CHAPTER 24: SOFT TISSUE GRAFTING: MATERIALS, TECHNIQUES, AND TIMING -- SUMMARY -- Gingival Phenotype -- Predicting the Need for Soft Tissue Grafting -- Graft Material Selection -- Free Gingival Grafts and Subepithelial Connective Tissue Grafts -- Soft Tissue Allografts and Xenografts -- Conclusion -- References.

CHAPTER 25: PARTIAL EXTRACTION THERAPY: SINGLE-TOOTH AND FULL-ARCH APPLICATIONS -- SUMMARY -- Using PET for Single-Tooth Restoration -- Using PET for Full-Arch Restoration -- Strategies for Complication Management -- Conclusion -- References -- CHAPTER 26: PERI-IMPLANTITIS -- SUMMARY -- Prevalence of Peri-implantitis -- Diagnosis of Peri-implantitis -- Monitoring of Peri-implant Conditions -- Onset and Progression -- Local Confounders and Systemic Drivers Associated with Peri-implantitis -- Therapy for Peri-implantitis -- Peri-implantitis Bone Defect Morphology -- Technical Notes for the Surgical Management of Peri-implantitis -- Conclusion -- References -- CHAPTER 27: ENHANCING PERI-IMPLANT EMERGENCE PROFILE AND SOFT TISSUE CONTOURS WITH GBR -- SUMMARY -- Esthetic Risk Assessment in Compromised Sites (FATTT Assessment) -- Management of Common Alveolar Ridge Defects -- Surgical Technique -- Conclusion -- References -- CHAPTER 28: SUTURING TECHNIQUES AND MATERIALS FOR DENTAL IMPLANT SURGERY -- SUMMARY -- Material Characteristics -- Armamentarium -- Common Suture Types in Implant

Dentistry -- Suture Knots -- Suturing Techniques -- Conclusion --
References -- CHAPTER 29: GUIDED BONE REGENERATION: PRINCIPLES
AND PRACTICE -- SUMMARY -- Clinical Rationale for GBR -- Biologic
Principles of GBR -- Diagnosis and Treatment Planning -- GBR
Technique -- Technique Considerations -- Complications and
Management -- Future Perspectives -- Conclusion -- References --
CHAPTER 30: VERTICAL RIDGE AUGMENTATION -- SUMMARY --
Classification of Bony Defects -- Bone Augmentation Principles for
Successful VRA -- Techniques for VRA -- Decision Tree for VRA --
Conclusion -- References -- CHAPTER 31: DENTAL IMPLANT
MARKETING -- SUMMARY -- Dental Implant Models -- Verbal Skills for
Treatment Plan Presentation -- Database Marketing -- Conclusion --
References -- INDEX.

Sommario/riassunto

"This book is a comprehensive guide to implant dentistry and covers everything from bone metabolism to bone grafting materials, media documentation, diagnosis and treatment planning, guided surgery, immediate implant placement, sinus augmentation, single-tooth and full-arch treatment, prosthetic considerations, soft tissue augmentation, esthetics, ridge augmentation, and many other topics relevant to implant dentistry"--
