

1. Record Nr.	UNINA9911026037303321
Autore	Garg Arun K
Titolo	Zygoma Implants : Step by Step
Pubbl/distr/stampa	Batavia : , : Quintessence Publishing Company, Incorporated, , 2023 ©2023
ISBN	9781647241582 1647241588 9781647241599 1647241596
Edizione	[1st ed.]
Descrizione fisica	1 online resource (370 pages)
Disciplina	617.6/93
Soggetti	Dental Implants Zygoma - surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Klasser_Frontmatter -- American Academy of Orofacial Pain -- Orofacial Pain Guidelines for Assessment, Diagnosis, and Management The American Academy of Orofacial Pain SEVENTH EDITION -- Contents -- Preface -- Acknowledgments -- CH01 Introduction to Orofacial Pain -- The Spectrum of Orofacial Pain -- The Specialty of Orofacial Pain -- Pain -- Pathways of Nociception -- Neurophysiologic Phenomena and Clinical Correlates -- Mechanisms of Sensitization -- The Biopsychosocial Model and Allostatic Load -- Contributing Factors to Chronic Orofacial Pain -- Comorbidities: Orofacial Pain and Chronic Overlapping Pain Conditions -- Future Directions for Research and Treatment -- References -- CH 02 General Assessment of the Orofacial Pain Patient -- Screening Evaluation -- Comprehensive Evaluation -- History Taking -- Physical Examination -- Diagnostic Tests -- References -- CH 03 Diagnostic Classification of Orofacial Pain -- Terminology -- Diagnostic Classification Systems -- Differential Diagnosis of Orofacial Pain -- References -- CH 04 General Assessment of the Orofacial Pain Patient -- Overview -- Headache Attributed to Cranial or Cervical Vascular Disorder (ICHD-3 Item 6) -- Headache Attributed to Nonvascular Intracranial Disorders (ICHD Item 7) --

Headache Attributed to Infection (ICHD 9) -- References -- CH 05 Primary Headache Disorders -- Migraine (ICHD 1.x.x -- ICD-10G43. xxx -- ICD-11 8A80.xxx) -- Tension-Type Headache (ICHD2.x.x -- ICD-10 G44.2xx -- ICD-118A81.xx) -- Trigeminal Autonomic Cephalalgias (TACs) -- Cluster Headache (ICHD 3.1.x -- ICD-10 G44. 01x-G44.02x -- ICD-11 8A82.xxx) -- Paroxysmal Hemicrania (ICHD3. 2.x -- ICD-10 G44.03x-G44.04x -- ICD-11 8A82.xx) -- Short-Lasting Unilateral Neuralgiform Headache Attacks (ICHD 3.3.x -- ICD-10 G44. 05x -- ICD-11 8A82.xx) -- Hemicrania Continua (ICHD 3.4 -- ICD-10 G44.51 -- ICD-11 8A82.xx).

Conclusion -- References -- CH 06 Neuropathic Pain -- Neuralgia -- Central Neuropathic Pain (ICHD13.13) -- Neurodegenerative Diseases as Causes for Central Pain -- Other Conditions Potentially Associated with Some Elements or Signs and Symptoms of Neuropathy -- References -- CH 07 Intraoral Pain Disorders -- Odontogenic Pain -- Nonodontogenic Toothache -- Oral Mucosal Pain -- Newer Trends -- References -- CH 08 Differential Diagnosis and Management of TMDs -- Anatomy of the Masticatory Structures -- Defining TMDs -- Epidemiology of TMDs -- Etiology of TMDs -- Diagnostic Classification of TMDs -- Management of TMDs -- Conclusion -- References -- CH 09 Cervical Spinal Disorders and Associated Headaches -- Defining Cervical Spine Disorders -- Epidemiology of CSDs -- Relationship Between CSDs and Orofacial Pain -- Screening of the Cervical Spine -- Common CSDs -- References -- CH 10 Extracranial and Systemic Causes of Head and Facial Pain -- Pain Stemming from Tissues or Organs in the Head and Neck -- Pain Stemming from Systemic Diseases -- References -- CH 11 Sleep and Orofacial Pain -- Sleep Overview -- Interactions Between Sleep and Pain -- Sleep and Pain: Clinical Relevance -- Sleep Bruxism -- Screening, Referral, and Management Considerations -- References -- CH 12 Axis II: Biobehavioral Considerations -- Foundation of the Biobehavioral Model -- Implementing a Biobehavioral Framework: Dual-Axis Coding -- Brief Screening for Biobehavioral Factors -- Comprehensive Evaluation of Biobehavioral Factors -- Psychiatric Disorders -- Consultation and Referral Strategies -- Axis II Evaluation as a Part of Any Evaluation -- Biobehavioral Care: Integrated Care as the Standard of Care -- References -- Index.

Sommario/riassunto

"Provides the rationale for using zygoma implants in cases of severe maxillary atrophy or trauma and details the supporting evidence for their use, their indications in clinical practice, and the many techniques and combination approaches available to clinicians"--
