Sommario/riassunto	The message 'An error occurred: PyCryptodome is required for AES algorithm' suggests a technical focus on cryptographic software and its dependencies. The text likely deals with the implementation and troubleshooting of cryptographic algorithms, specifically AES (Advanced Encryption Standard). The author aims to provide guidance on the technical prerequisites and software requirements necessary for secure encryption practices, possibly targeting IT professionals, software developers, and cybersecurity enthusiasts. The primary goal is to address common errors and provide solutions for effective cryptographic implementations.
