Titolo	(Macro)molecular crowding : life of the pottage // editor, Vladimir N. Uversky
Pubbl/distr/stampa	Cham : , : Springer, , 2025 ©2025
ISBN	3-032-03370-5
Descrizione fisica	1 online resource (792 pages) : illustrations
Collana	Subcellular Biochemistry Series ; ; v.109
Altri autori (Persone)	UverskyVladimir N
Soggetti	Macromolecules
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references
Sommario/riassunto	This book offers a general overview of an important biological phenomenon known as macromolecular crowding. This phenomenon is rooted in the fact that the living cell contains very large quantities of various biological macromolecules, such as proteins, nucleic acids, and carbohydrates, whose concentration can be as high as 400 mg/ml, and which.
