Heritage Amid Climate Change -- Part III: Case Studies and Local Approaches to Sustainable Tourism -- 10. The Impact of Home-Based Food Enterprises for Sustainable Tourism in Bali -- 11. Capturing Laduma Tourism Village: A Renewable Energy Based-Tourism Destination -- 12. Climate Change Resilience in Tourism Destinations: An Exploratory Study of Tan Hoa Weather Adaptive Tourism Village in Vietnam -- 13. Tourism, Hospitality and Agro-Silvopastoral Systems: Case of Cotopaxi, Ecuador -- 14. Sustainable Practices in Rural Tourism: Promoting Environmental Responsibility and Community Engagement in India.

Sommario/riassunto

This book focuses on the intricate relationship between climate change and the tourism industry, examining the challenges and opportunities arising from this global phenomenon. The tourism sector, a significant contributor to both the acceleration and impact of climate change, is scrutinized for its carbon footprint in transportation and accommodation. The direct consequences of extreme weather events further compound the complexity. However, within these challenges lies the potential for positive transformation. The book explores the role of the tourism industry as a catalyst for sustainable practices and environmental conservation. Through an examination of resilient strategies, it aims to provide insights into fostering a harmonious relationship between tourism and the environment, thereby ensuring a positive impact in the context of a changing climate.
