   Disciplina   621.382

   Soggetti   Telecommunication
                       Technology - Sociological aspects
                       Information technology
                       Internet of things
                       Computational intelligence
                       Artificial intelligence
                       Communications Engineering, Networks
                       Information and Communication Technologies (ICT)
                       Internet of Things
                       Computational Intelligence
                       Artificial Intelligence

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Nota di contenuto   Chapter 1: DEVELOPMENT OF A WEB APPLICATION FOR POULTRY FARM
                       MONITORING AND CONTROL SYSTEM -- Chapter 2: K-NEAREST
                       NEIGBOUR CLASSIFICATION ACCURACY APPROACH USING WEIGHTED
                       DISTANCE METRICS AND THREE WAY DECISIONS -- Chapter3 : MYv7:
                       New 3D Monocular Object Detection Improvement for Road and Railway
                       Smart Mobility -- Chapter 4: Analysis of the use of LKT for the teaching
                       of Physical Education in the General Unified High School -- Chapter 5:
                       Towards Integrated Health Information Systems Implementation in
                       Ghana Health Service -- Chapter 6: Selection and prioritizing Quality of

Services Based on Qualitative and Quantitative Approach -- Chapter 7: Development of Environmental Sustainability Labels for Foods -- Chapter 8: Enhancing Sustainability in Food Systems through University-Community Partnerships -- Chapter 9: Promoting Active Learning and Autonomy in English as a Second Language (ESL) Classroom through iPads: An Applied Framework -- Chapter 10: Enhancing Cybersecurity through Blockchain Technology.-.

Sommario/riassunto	This book gathers selected high-quality research papers presented at the Tenth International Congress on Information and Communication Technology (ICICT 2025), held in London, on February 18–21, 2025. It discusses emerging topics pertaining to information and communication technology (ICT) for managerial applications, e-governance, e-agriculture, e-education and computing technologies, the Internet of Things (IoT), and e-mining. Written by respected experts and researchers working on ICT, the book offers an asset for young researchers involved in advanced studies. The work is presented in ten volumes.
