Autore	Gan Xiao-Xiong
Titolo	Formal analysis : an introduction // Xiao-Xiong Gan
Pubbl/distr/stampa	Berlin, Germany ; ; Boston, Massachusetts : , : De Gruyter, , [2021] ©2021
ISBN	3-11-059860-4 3-11-059945-7
Descrizione fisica	1 online resource (XII, 326 p.)
Collana	De Gruyter Studies in Mathematics ; ; 80
Classificazione	SK 230
Disciplina	515
Soggetti	Mathematical analysis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- Preface -- Contents -- 1 Basics of formal power series -- 2 Calculus of formal power series -- 3 Applications of formal power series, I -- 4 Applications of formal power series, II -- 5 General composition -- 6 Formal analysis and classical analysis -- 7 Formal Laurent series -- 8 Iteration and iterative roots -- 9 Formal series and general exponents -- Bibliography -- Index
Sommario/riassunto	Formal analysis is the study of formal power series, formal Laurent series, formal root series, and other formal series or formal functionals. This book is the first comprehensive presentation of the topic that systematically introduces formal analysis, including its algebraic, analytic, and topological structure, along with various applications.

Nota di contenuto	1: Introduction: On the Necessity of a Sadean Metaphysics -- 2: Sade's Entropic Monism -- 3: Money, Finance and Value in Sade -- 4: Sade's Philosophy of Language -- 5: Conclusion: On the Possibility of a Sadean Ethics.
Sommario/riassunto	This book present Sade's core metaphysical commitments as a coherent and logical system. It analyses his central ontological principle of entropy and shows that Sade endorsed neither egoism nor materialism but was a forerunner to 19th Century thermodynamics. It then turns to his philosophy of money and finance, including his critique of phenomenology, his axiology, and his attack on theories of expected utility. It concludes by considering the extent to which a normative ethical theory can be salvaged from his otherwise largely deconstructive opus. The Metaphysics of De Sade is essential reading for all scholars and researchers of early modern philosophy. Conor Husbands is a UK based philosophical scholar with a broad variety of

metaphysical research interests. He has previously published *The Temporality of Determinacy* with Palgrave (2022). His other previous publications include *Klossowski's Semiotic of Intensity: Time, Language and the Vicious Circle* (2020) and *Esposito's temporality of finance: Endogeneity and revisability in derivative transactions* (2021). He holds an MPhysPhil in Physics & Philosophy from the University of Oxford.
