

1. Record Nr.	UNINA9911034957203321
Autore	Saez Francisco
Titolo	Essential Oral Histology // by Francisco J. Sáez, Iker Badiola
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	3-032-03165-6
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (546 pages)
Collana	Learning Materials in Biosciences, , 2509-6133
Altri autori (Persone)	Badiolalker
Disciplina	617.6
Soggetti	Dentistry Mouth Anatomy Cytology Oral Anatomy Cell Biology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1: Histology And The Study Of Human Tissues -- Chapter 2: General Embryology -- Chapter 3: Epithelial Tissues -- Chapter 4: Connective Tissues -- Chapter 5: Cartilaginous Tissue -- Chapter 6: Osseous Tissue (I) Macroscopic And Microscopic Structure -- Chapter 7: Osseous Tissue (II) Ossification, Bone Remodelling And Joints -- Chapter 8: Blood -- Chapter 9: Haemopoiesis -- Chapter 10: Muscle Tissues -- Chapter 11: Nerve Tissue -- Chapter 12: Circulatory System -- Chapter 13: Odontogenesis -- Chapter 14: Oral Mucosa -- Chapter 15: Salivary Glands And Tonsils -- Chapter 16: Temporomandibular Joint Complex (TmjC) -- Chapter 17: Dental Pulp -- Chapter 18: Dentine -- Chapter 19: Enamel -- Chapter 20: Protective Periodontium -- Chapter 21: Insertion Periodontium -- Chapter 22: Tooth Eruption -- Chapter 23: Primary Teeth.
Sommario/riassunto	This book addresses a critical gap in undergraduate histology education for dental students. While most oral histology textbooks focus on the specific features of oral tissues, they often overlook the fundamental tissues of the human body. However, dental histology curricula often cover both basic human tissues and their unique features within the oral cavity. To compensate for this gap, this book

begins with an in-depth study of the basic tissues of the human body before moving on to the specialized tissues of the oral cavity. This approach ensures that both teachers and students receive a comprehensive understanding tailored to their needs. The book is designed to be practical, compact and easy to handle, making it ideal for on-the-go study. It is not intended to be a comprehensive treaty but provides concise and essential information in line with the streamlined curricula of modern health sciences education. The content is presented in outline format, giving students a clear overview of each topic and facilitating effective review.
