

1. Record Nr.	UNINA9911035045303321
Autore	Cohl Howard S
Titolo	Proceedings of the 16th International Symposium on Orthogonal Polynomials, Special Functions and Applications (OPSFA-16) : June 13–17, 2022, Centre de recherches mathématiques, Montréal, Québec, Canada / / edited by Howard S. Cohl, Luc Vinet, Sarah Post, Josée Savard
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	9783031901355
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (0 pages)
Collana	CRM Series in Mathematical Physics, , 2627-7662
Altri autori (Persone)	VinetLuc PostSarah SavardJosée
Disciplina	530.15
Soggetti	Mathematical physics Algebraic fields Polynomials Functions, Special Mathematical Physics Field Theory and Polynomials Special Functions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	A new approach to evaluating Malmsten's integral and related integrals -- Special values for the continuous Jacobi polynomials with application to its Poisson kernel -- Orthogonal Polynomials for the Gaussian Weight with a Jump and Discrete Painlevé Equations -- Markov Chains and Multiple Orthogonality -- Special functions in quantum phase estimation -- Duality and Macdonald difference operators -- Krein Sobolev Orthogonal Polynomials -- A method for summing q Bessel series -- Extended Coherent States -- The Mittag Leffler type Confluent Hypergeometric Matrix Function and their Fractional Calculus -- Sharp estimates for the Opdam Cherednik invariant heat kernel for the root system 1 -- On Airy Solutions of PII and Complex Cubic Ensemble of Random Matrices, I.

This proceedings provides a forum for mathematicians, physicists, and computational scientists to communicate and discuss recent research results in the areas of orthogonal polynomials and special functions. This symposium is an event of the SIAM Activity Group on Orthogonal Polynomials and Special Functions. The activity group promotes basic research in orthogonal polynomials and special functions, as well as applications of this subject in other parts of mathematics, and in science and industry. It encourages and supports the exchange of information, ideas, and techniques between researchers in this field and other mathematicians and scientists. This 16th edition of the proceedings reports advances generated by renowned international researchers and will include as well results obtained by younger scientists.
