Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	3-031-93177-7
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (471 pages)
Collana	Climate Change Management, , 1610-2010
Disciplina	613.1
Soggetti	Environmental health Climatology Environmental management Environmental Health Climate Sciences Environmental Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Effects of ambient temperature and its effect modifiers on malaria in Bamako, Mali -- 2. Climate Change Impacts on Children's Health in Nigeria -- 3. Navigating Healthcare Systems Challenges Amidst Climate Change Impacts in Coastal Bangladesh -- 4. On the frontline of climate change and health: A health worker eyewitness report from the Global South -- 5. Epidemiological Modelling of Climate-Dependent Diseases: Case of Dengue Fever in Burkina Faso.
Sommario/riassunto	The global climate crisis is one of the most defining challenges of our time, with profound implications not just for the environment, but also for human health. While the impacts of climate change are felt worldwide, they are disproportionately severe in developing countries, where populations are more vulnerable due to economic, social, and infrastructural limitations. This book, Climate Change and Health: Perspectives from Developing Countries, seeks to bring attention to the unique challenges faced by these nations, while also highlighting their innovative solutions and resilience in the face of an increasingly unstable climate. This book brings together a wide range of perspectives from researchers, healthcare professionals, and

community leaders from across the developing world. It explores the diverse ways in which climate change is affecting health, drawing on case studies, especially from Africa, Developing regions face different challenges, from rising sea levels to food insecurity, but they also share common experiences of vulnerability and resilience.
