Descrizione fisica	1 online resource (492 pages)
Disciplina	378.173
Soggetti	Internet in education Education, Higher
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	In modern online education, academic coaching is a critical support system for student success. Unlike traditional tutoring, academic coaching focuses on fostering personalized growth, helping students develop essential skills such as time management, goal setting, and self-motivation. As virtual learning environments expand, the role of academic coaches becomes important in bridging the gap between course content and student engagement. By providing personalized guidance and accountability, academic coaching empowers learners to navigate the challenges of online education and achieve long-term academic and personal goals. Academic Coaching in Modern Online Education explores the utilization of online tools and applications in academic coaching. It examines innovative support system's scalability, empowering educational institutions to expand their online course enrollment without the need for additional faculty recruitment. This book covers topics such as higher education, professional development, and education technologies, and is a useful resource for educators, computer engineers, academicians, researchers, and scientists.
