Titolo	The Normative and Regulatory Challenges for the Implementation of the European Deforestation-Free Regulation in Third Affected Countries : A Brazilian Case-Study // by Paula Wojcikiewicz Almeida, Gabriel Ralile de Figueiredo Magalhães, Lucas da Cunha Vollers, Vitor Furtado de Melo
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	3-032-08458-X
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (161 pages)
Collana	Law and Criminology Series
Disciplina	344.046
Soggetti	Environmental law, International Commercial law European Economic Community International law Trade regulation Conflict of laws Comparative law International Environmental Law European Economic Law International Economic Law, Trade Law Private International Law, International and Foreign Law, Comparative Law
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- EU as 'Global Standard-Setter' in Climate Change and Effects on Non-EU Countries -- Assessing the EUDR'S Challenges and Opportunities -- Potential Dispute Resolution Alternatives -- The Impacts of the EUDR in Brazil -- General Conclusion.
Sommario/riassunto	This book critically examines the primary challenges associated with the indirect implementation of the European Deforestation-Free Regulation (EUDR) in Brazil. The EUDR is a demand-side regulatory measure designed to mitigate the European Union's (EU's) contribution

to global deforestation and forest degradation, thereby aiming to reduce greenhouse gas emissions and biodiversity loss. The regulation has raised concerns among certain countries that its compliance requirements may impose significant costs on their production chains, leading to potential extraterritorial effects. While the EUDR does not directly apply to the normative frameworks of third countries, it mandates compliance for market access to the EU. Therefore, this study addresses the following research question: What are the challenges to the indirect implementation of the EUDR in Brazil? To answer this question, the book analyzes the relationship between Brazil's national forest-related framework and the EUDR. It posits that the extraterritorial nature of the EUDR does not fully consider the unique specificities of other countries, which may lead to potential incompatibilities with their existing regulatory mechanisms.
