

1. Record Nr.	UNINA9911040910103321
Autore	CIM The Metallurgy and Materials Society of
Titolo	12th International Copper Conference : Proceedings of the Extraction 2025 Meeting & Exhibition, Volume I
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	3-032-00102-1
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (3507 pages)
Collana	Engineering Series
Disciplina	622
Soggetti	Mining engineering Metals Building materials Materials Catalysis Force and energy Mining and Exploration Metals and Alloys Steel, Light Metal Materials for Energy and Catalysis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Copper 2025 is the first of three volumes devoted to the Copper 2025 + Ni-Co 2025 + Cross-Cutting Symposia of the Extraction 2025 Meeting & Exhibition joint conference, held November 16–20, 2025, at the Sheraton Grand at Wild Horse Pass in Phoenix, Arizona, USA. The success of the Copper Conference is thanks to the efforts of eight leading international societies (IIMCh, GDMB, MMIJ, TMS, SME, MetSoc of CIM, NFSOC, and SAIMM), who continue to bring forth symposia of the highest quality on mining, mineral processing, pyrometallurgy, hydrometallurgy, electrometallurgy, process control, and instrumentation. The Extraction 2025 volumes collect important research examining new developments in foundational extractive metallurgy topics and techniques. They also offer new programming

designed to share the latest research and insights on emerging technologies and issues that are shaping the global extractive metallurgy industry. The Extraction 2025 Meeting & Exhibition was jointly organized by The Metallurgy and Materials Society (MetSoc) of the Canadian Institute of Mining, Metallurgy and Petroleum (CIM), the Society for Mining, Metallurgy & Exploration (SME), and The Minerals, Metals & Materials Society (TMS).
