| Sommario/riassunto      | This LNCS book is part of the FOLLI book series and constitutes the proceedings of the 10th International Conference on Logic, Rationality, and Interaction, LORI 2025, held in Xi'an, China, in October 2025. The  |

14 full papers presented in this book were carefully reviewed and selected from 47 submissions. The topics addressed in this program effectively showcase the breadth and depth characteristic of the LORI conference series, including contributions on dynamic epistemic logic, nonmonotonic reasoning, belief revision theory, decision theory, causal inference, social epistemology and so on.
