

1. Record Nr.	UNINA9911046558103321
Autore	Awasthi Mukesh Kumar
Titolo	Nanofluid Heat Transfer
Pubbl/distr/stampa	Newark : , : John Wiley & Sons, Incorporated, , 2026 ©2026
ISBN	1-394-33640-3 1-394-33639-X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (499 pages)
Disciplina	621.402
Soggetti	Nanofluids Thermal analysis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Future-proof your thermal system designs with this essential guide, providing a comprehensive, cutting-edge exploration of nanofluids to drive innovation and efficiency in heat transfer. The development and application of nanofluids aligns with the broader trend towards miniaturization and higher efficiency in thermal systems.
