1. Record Nr.   UNINA9911047696403321

   Autore   Neri Filippo

   Titolo   Computer and Communication Engineering : 5th International
                     Conference, CCCE 2025, Helsinki, Finland, May 23–25, 2025, Revised
                     Selected Papers / / edited by Filippo Neri, Zhiyu Jiang, Hamid Reza
                     Karimi, Paolo Mercorelli

   Pubbl/distr/stampa Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2026

   ISBN   3-032-06757-X

   Edizione   [1st ed. 2026.]

   Descrizione fisica 1 online resource (208 pages)

   Collana   Communications in Computer and Information Science, , 1865-0937 ; ;
                     2642

   Disciplina   005.7

   Soggetti   Database management
                     Artificial intelligence
                     Image processing - Digital techniques
                     Computer vision
                     Software engineering
                     Computer science - Mathematics
                     Database Management System
                     Artificial Intelligence
                     Computer Imaging, Vision, Pattern Recognition and Graphics
                     Software Engineering
                     Mathematics of Computing

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Nota di contenuto -- LoRaWAN Beaconing-Based Technique for Efficient Uplink
                     Transmission. -- Localization in Wireless Sensor Network Using
                     Supervised Regression Techniques. -- BER and Spectral Efficiency
                     Analysis of Multi-Base Station RIS-Assisted Systems. -- Secure Device
                     Registration in Future Railway Mobile Communication System. --
                     Improving Weak Turbulence Free Space Optical Communication Links
                     using Generalized Low Density Parity Check Codes. -- Optimizing
                     MIMO Performance via the Integration of FTN and RIS. -- Fault
                     Management of Railway Cloud Resources as a Service. -- A Multi-
                     Product Risk-Averse Newsvendor Problem with Demand Forecasting

and Its Solution by Swarm Intelligence. -- Challenges to the Human Factors in Cybersecurity in Bulgaria. -- Design and Practice of Industrial Sensor Data Classification and Hierarchical Security Supervision Platform. -- Smart Greenhouse Tomato Maturity Detection Based on YOLOv8 Model. -- Toward an understanding of the self-coherence and the cross-coherence of LLMs – An empirical investigation.

| Sommario/riassunto | This volume constitutes the revised selected papers of 5th International Conference on Computer and Communication Engineering, CCCE 2025, in Helsinki, Finland, during May 23–25, 2025. The 12 full papers included in this book were carefully reviewed and selected from 29 submissions. They were organized in topical sections as follows: Future Communication Systems and Wireless Transmission Technologies; Data-Driven Intelligent Detection Technologies and Safety Management. |
