

1. Record Nr.	UNINA9911049082803321
Autore	Agarwal Pooja
Titolo	Dermatologist's Handbook of Autoimmune Connective Tissue Diseases // edited by Pooja Agarwal, Ashish Jagati, Santoshdev Rathod
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2025
ISBN	981-9505-24-0
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (300 pages)
Collana	Medicine Series
Altri autori (Persone)	Agarwal
Disciplina	616.5
Soggetti	Dermatology Immunologic diseases Autoimmunity Diseases Immunological Disorders
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1: Introduction of autoimmune connective tissue disorders -- Chapter 2: Dermoscopy in Autoimmune connective tissue disease (AI-CTD) -- Chapter 3: Auto antibodies – ANA & ENA -- Chapter 4: Investigations -- Chapter 5: Raynaud's phenomenon -- Chapter 6: Discoid Lupus Erythematosus -- Chapter 7: Systemic Lupus Erythematosus -- Chapter 8: Systemic sclerosis -- Chapter 9: Morphea -- Chapter 10: Dermatomyositis -- Chapter 11: Sjogren's syndrome -- Chapter 12: Mixed connective tissue disease, Overlap and Undifferentiated CTD -- Chapter 13: Raynaud's phenomenon -- Chapter 14: Discoid Lupus Erythematosus -- Chapter 15: Systemic Lupus Erythematosus -- Chapter 16: Systemic sclerosis -- Chapter 17: Morphea -- Chapter 18: Dermatomyositis -- Chapter 19: Sjogren's syndrome -- Chapter 20: Mixed connective tissue disease, Overlap and Undifferentiated CTD.
Sommario/riassunto	This book covers autoimmune connective tissue diseases, an enigmatic area of dermatology that often pose a challenge to the treating dermatologists. The numerous presentations of systemic lupus erythematosus, the complications of systemic sclerosis, and the never-ending confusion regarding mixed connective tissue diseases are just

the tip of an iceberg, making the subject look complex. On the contrary, once the concepts regarding pathogenesis and autoantibodies are cleared, treating these patients becomes less challenging. For a long time, we felt a gap in outlining a simple approach to these connective tissue diseases in the existing dermatology literature. This book has been written to explain the concepts in a less daunting manner and can be easily understood by both postgraduate residents and practicing consultants of dermatology. The chapters provide a systematic approach to the diagnosis and management of various connective tissue diseases with the help of tables/ algorithms and flowcharts. This book targets both postgraduate residents as well as practicing dermatologists. The complex subject of connective tissue diseases has been explained easily for better understanding and retention. It also highlights the holistic management of the patient.
