Sommario/riassunto	This book includes the peer-reviewed proceedings of the 3rd International Conference on Information Control, Electrical Engineering, and Rail Transit (ICEERT 2024). This book provides the advanced research results of transportation and covers the main research fields of information control, traffic information engineering, and control, intelligent transit, logistics, etc. This book aims to promote a new green and intelligent mode of rail transit between scholars from the top

universities, research centers, and high-tech enterprises around the world, which is beneficial to researchers and practitioners in mechanical engineering. .
