

1. Record Nr.	UNINA9911049223803321
Autore	Rocha Alvaro
Titolo	Proceedings of 20th Iberian Conference on Information Systems and Technologies (CISTI 2025) : Volume 2 // edited by Alvaro Rocha, Francisco García Peñalvo, Carlos J. Costa, Ramiro Gonçalves
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2026
ISBN	3-032-10721-0
Edizione	[1st ed. 2026.]
Descrizione fisica	1 online resource (1327 pages)
Collana	Lecture Notes in Networks and Systems, , 2367-3389 ; ; 1717
Altri autori (Persone)	RochaGonzalo
Disciplina	006.3
Soggetti	Computational intelligence Engineering - Data processing Application software Computational Intelligence Data Engineering Computer and Information Systems Applications
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Risk Taxonomies and Governance Frameworks for Generative AI: A Review of Ethical, Cybersecurity, and Regulatory Challenges -- Requirements for implementing a Transportation Management System in an adhesives production unit -- Hybrid Machine Learning and Deep Learning Model for Efficient DDoS Attack Detection in Software-Defined Networks -- Designing Blockchain-based Systems with Clean Architecture.
Sommario/riassunto	This book comprises peer-reviewed papers selected for presentation and discussion at the 20th Iberian Conference on Information Systems and Technologies (CISTI'2025), held from June 16 to 19, 2025, at ISEG—Lisbon School of Economics and Management, University of Lisbon, Portugal. CISTI'2025 is a leading international forum that brings together researchers, practitioners, and industry experts to exchange the latest research findings, innovative solutions, emerging trends, professional experiences, and key challenges across various domains of information systems and technologies. The conference also emphasizes recent technological advancements and their practical

applications. The book covers essential topics such as: A) organizational models and information systems; B) knowledge management and decision support systems; C) software systems, architectures, applications, and tools; D) computer networks, mobility, and pervasive systems; E) human-centered computing; F) health informatics; G) information technologies in education; and H) architecture and engineering of construction. The primary audience for this publication includes postgraduate students, researchers, and academics in information systems and technologies. It also serves as an essential reference for undergraduate students and professionals in related fields.
