ISBN	3-032-07417-7
Edizione	[1st ed.]
Descrizione fisica	1 online resource (135 pages)
Collana	SpringerBriefs in History of Computing Series
 Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This manuscript is about an artifact, the Encyclopedia of Computer Science (ECS). From the time that computer science was mature enough to have its own reference book until printed reference books began to be eclipsed by online products--that is, roughly the final quarter of the 20th century--ECS was the premiere reference work for this field.
