Sommario/riassunto	Physicians and healthcare professionals will find here well-founded answers to the most frequently asked questions that patients have about vascular medicine topics—answers that are also understandable for medical laypersons. The basis for this is the author's more than 20 years of experience in educational and counseling conversations, in which the same points are repeatedly addressed. Contents include: What do vascular specialists actually do? – Arteriosclerosis – Peripheral artery disease (“window shopper’s disease”) – Chronic wounds – Amputations – Diabetic foot syndrome – Vascular occlusion – Stroke –

Aortic aneurysm – Kidney failure and dialysis – Vascular injuries from accidents – Vascular diseases in athletes – Varicose veins – Thrombosis  
About the author: Prof. Dr. med. Susanne Regus is Deputy Director of the Department of Vascular Surgery at the University Hospital Regensburg. The translation was done with the help of artificial intelligence. A subsequent human revision was done primarily in terms of content. This book is a translation of an original German edition. The translation was done with the help of artificial intelligence (machine translation by the service DeepL.com). A subsequent human revision was done primarily in terms of content, so that the book will read stylistically differently from a conventional translation.
