

1. Record Nr.	UNINA9911058127503321
Autore	Cao Tun
Titolo	Chalcogenide Nanophotonics
Pubbl/distr/stampa	Newark : , : John Wiley & Sons, Incorporated, , 2026 ©2026
ISBN	3-527-84455-4 3-527-84457-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (368 pages)
Disciplina	621.381
Soggetti	Chalcogenides Nanophotonics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Comprehensive summary of Chalcogenide Nanophotonics, reviewing basic principles, synthesis methods, and cutting-edge applications Chalcogenide Nanophotonics offers an in-depth exploration of these remarkable materials, covering their fundamental physics, synthesis methods, optical phenomena, and cutting-edge applications in modern photonics.
