

1. Record Nr.	UNINA9911066011703321
Autore	Peng Zhiwei
Titolo	External Field-Intensified Materials Processing // edited by Zhiwei Peng, Jiann-Yang Hwang, Roger Ruan, Robin Augustine, Morsi Mahmoud, Manoj Gupta, Joonho Lee
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2026
ISBN	3-032-13764-0
Edizione	[1st ed. 2026.]
Descrizione fisica	1 online resource (202 pages)
Collana	The Minerals, Metals & Materials Series, , 2367-1696
Disciplina	620.5
Soggetti	Nanotechnology Production engineering Mining engineering Mineralogy Metals Nanoscale Design, Synthesis and Processing Process Engineering Mining and Exploration Metals and Alloys
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This collection emphasizes the advances of materials processing using various external fields, including electromagnetic fields, electric fields, and gravitational fields, aiming to address challenges in sustainable and efficient processing of different forms of materials. Contributions cover technologies including minerals engineering, metal extraction, materials synthesis and processing, waste treatment, resource and energy recovery, and integration of techno-economic analysis and life cycle assessment.
