

1. Record Nr.	UNINA9911069559503321
Autore	Aabedi Alexander
Titolo	Handbook of Spine Surgery // by: Baaj, Ali A., Mummaneni, Praveen V., Uribe, Juan S., Vaccaro, Alexander R., Greenberg, Mark S.
Pubbl/distr/stampa	New York : , : Thieme Medical Publishers, Incorporated, , 2024 ©2025
ISBN	9781684206797 1684206790 9781684206773 1684206774
Edizione	[3rd ed.]
Descrizione fisica	1 online resource (678 pages)
Disciplina	617.4/71
Soggetti	Spine - surgery Neurosurgical Procedures - methods Orthopedic Procedures - methods Spinal Cord - surgery Handbook
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Cover -- Title -- Copyright -- Dedication -- Contents -- Videos -- Foreword -- Foreword -- Preface -- Acknowledgments -- Contributors -- Part I Anatomy -- 1 Craniovertebral Junction -- Key Points -- Bony Anatomy -- Neural Anatomy -- Vascular Anatomy -- Muscular Anatomy (-- Ligamentous Anatomy (-- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 2 Cervical Spine -- Key Points -- Bony Anatomy -- Bony Landmarks -- Vertebrae Anatomy -- Geometric Measurements -- Biomechanics and Mobility -- Neural Anatomy -- Geometric Orientation -- Cervical Plexus and Phrenic Nerve -- Brachial Plexus -- Sympathetic Ganglia -- Vascular Anatomy -- Vertebral Artery Segments: V1 to V4 -- Blood Supply to Spinal Cord -- Venous Drainage -- Transverse Foramen and the Vertebral Artery -- Ligamentous and Muscular Anatomy -- Ligamentous Anatomy -- The Carotid Triangle -- Muscular Anatomy -- Variations in Anatomy -- Surgical Pearls -- Common Clinical Questions

-- Answers to Common Clinical Questions -- 3 Thoracic Spine -- Key Points -- Bony Anatomy (-- Neural Anatomy -- Vascular Anatomy -- Ligamentous and Muscular Anatomy (-- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 4 Lumbar Spine -- Key Points -- Bony Anatomy -- Neural Anatomy -- Vascular Anatomy (-- Ligamentous and Muscular Anatomy -- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 5 Sacral-Iliac Spine -- Key Points -- Bony Anatomy -- Neural Anatomy -- Vascular Anatomy -- Ligamentous and Muscular Anatomy -- Surgical Pearls -- Common Clinical Question -- Answer to Common Clinical Question -- Part II Clinical Spine Surgery -- 6 Physical Examination -- Key Points -- Main Components of the Spinal-Related Examination -- Clinical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions.

7 Spinal Imaging -- Key Points -- Description -- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 8 Radiation Exposure in Spine Surgery -- Key Points -- Description -- General Principles of Radiation -- Evidence-Based -- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 9 Electrodiagnostic Testing in Spine Surgery -- Key Points -- Description -- Nerve Conduction Study -- Electromyogram (EMG) -- Pathophysiology of Radiculopathy -- EMG/NCS Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 10 Intraoperative Neuromonitoring in Spine Surgery -- Introduction -- Key Points -- Methods -- Somatosensory Evoked Potentials -- Transcranial Electrical Motor Evoked Potentials -- Free-Run -- Triggered EMG -- H Reflex -- Neuromonitoring in Spinal Deformity Surgery -- Neuromonitoring for the Detection of Radiculopathy in -- Mechanomyography -- Epidural D Wave Monitoring for Intradural/Intramedullary Pathology -- Common Clinical Questions -- Answers to Common Clinical Questions -- 11 Bedside Procedures -- Key Points -- Indications -- Technique -- Halo Orthosis and Traction -- Lumbar Puncture or Lumbar Drain -- Complications -- Halo Orthosis and Traction -- Lumbar Puncture or Lumbar Drain -- Postprocedure Care -- Halo Orthosis and Traction -- Lumbar Puncture or Lumbar Drain -- Outcomes -- Surgical Pearls -- Halo Orthosis and Traction -- Lumbar Puncture or Lumbar Drain -- Common Clinical Questions -- Answers to Common Clinical Questions -- 12 Orthotics in Spine Surgery -- Key Points -- Indications -- Biomechanics of Spinal Orthoses -- Classifications -- Cervical Orthoses (CO) -- Cervicothoracic Orthoses (CTO) -- Cervicothoracolumbosacral Orthoses (CTLSO) -- Thoracolumbosacral Orthoses (TLSO) -- Lumbosacral Orthoses (LSO) -- Sacroiliac Orthoses (SIO). Common Clinical Questions -- Answers to Common Clinical Questions -- 13 Pharmacology of Antithrombotics, Antifibrinolytics, and Osteoporosis Medications -- Key Points -- Prophylactic Anticoagulation -- Treatment of Preoperative -- Treatment of Postoperative -- Reversal of Anticoagulation -- Antifibrinolytic Agents -- Osteoporosis Medications -- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 14 Spine Biologics -- Key Points -- Introduction -- Evolution and Market Growth -- Basic Properties -- Classification -- Autologous Biologics -- Autografts -- Bone Marrow Aspirate -- Growth Factors -- Allogenic Biologics -- Allografts -- Demineralized Bone Matrix -- Bone Morphogenetic Protein -- Synthetic Biologics -- Pediatric -- BOnE Classification -- MISS and Biologics -- Current Developments and Trends -- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- Part III Spinal Pathology -- 15 Congenital Anomalies --

Key Points -- Vertebral Developmental -- Congenital Scoliosis -- Klippel-Feil -- Anomalies of Notochord Formation -- Split Cord Malformations (SCMs) -- Anomalies of Dysjunction -- Spinal Lipomas -- Myelomeningocele -- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 16 Cervical Trauma -- Key Points -- General Principles -- Upper Cervical Spine Trauma -- Atlantooccipital Dissociation -- Atlas (C1) Fracture -- Axis (C2) Fracture and Traumatic -- Dens Fracture (C2) -- Subaxial Cervical Spine Trauma (C3-C7) -- Common Clinical Questions -- Answers to Common Clinical Questions -- 17 Thoracolumbar Trauma -- Key Points -- General Principles -- Thoracolumbar Fracture -- Key Concepts -- Bracing -- Conus Medullaris and Cauda Equina Syndromes -- Spinal and Neurogenic Shock -- Common Clinical Questions -- Answers to Common Clinical Questions.

18 Sacropelvic Trauma -- Key Points -- Sacral Fractures -- Background -- Signs, Symptoms, and Physical Examination -- Workup -- Neuroimaging -- Treatment -- Surgical Pearls -- Type B Injuries -- Background -- Signs, Symptoms, and Physical Examination -- Workup -- Neuroimaging -- Treatment -- Surgical Pearls -- Type C Injuries -- Background -- Signs, Symptoms, and Physical Examination -- Workup -- Neuroimaging -- Treatment -- Surgical Pearls -- Traumatic Spinopelvic Dissociations (Type C3 Injuries) -- Background -- Signs, Symptoms, and Physical Examination -- Workup -- Neuroimaging -- Treatment -- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 19 Infection -- Key Points -- Pyogenic Vertebral Osteomyelitis and Diskitis -- Etiology, Epidemiology, and Pathogenesis -- Patient Presentation -- Diagnostic Workup -- Treatment -- Prognosis/Complications -- Epidural Infections -- Etiology, Epidemiology, and Pathogenesis -- Patient Presentation -- Diagnostic Workup -- Treatment -- Prognosis/Complications -- Intradural Infections -- Etiology, Epidemiology, and Pathogenesis -- Patient Presentation -- Diagnostic Workup -- Treatment -- Prognosis/Complications -- Postoperative Infections -- Etiology, Epidemiology, and Pathogenesis -- Prophylaxis -- Patient Presentation -- Diagnostic Workup -- Treatment -- Prognosis/Complications -- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 20 Primary Bony Spinal Column Tumors -- Key Points -- Background -- Signs, Symptoms, and Physical -- Workup and Neuroimaging -- Treatment -- Surgical Pearls -- 21 Surgical Management of Spinal Metastases -- Key Points -- Background -- Signs, Symptoms, and Physical -- Workup and Neuroimaging -- Treatment -- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions.

22 Intradural Extramedullary and Intramedullary Spinal Tumors -- Key Points -- Indications -- Technique -- Surgical Technique for Intradural -- Surgical Technique for Intradural -- Complications -- Postoperative Care -- Surgical Pearls -- Outcomes -- Common Clinical Questions -- Answers to Common Clinical Questions -- 23 Cervical and Thoracic Spine Degenerative Disease -- Key Points -- Cervical Disk Herniation -- Background -- Signs, Symptoms, and Physical Examination -- Workup -- Treatment -- Surgical Pearls -- Cervical Spondylotic Myelopathy -- Background -- Signs, Symptoms, and Physical Examination -- Workup -- Treatment -- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 24 Degenerative Lumbar Spine Disease -- Key Points -- Background -- Specific Conditions -- Radicular Pain -- Neurogenic Claudication -- Axial Back Pain from Intervertebral Disk Disease (without Deformity) -- Axial Back Pain from Facet Joint Disease -- Spondylolisthesis --

Degenerative Scoliosis and Kyphosis -- Common Clinical Questions -- Answers to Common Clinical Questions -- 25 Congenital and Neuromuscular Scoliosis -- Key Points -- Congenital Scoliosis -- Neuromuscular Scoliosis -- Common Clinical Questions -- Answers to Common Clinical Questions -- 26 Scheuermann's Kyphosis -- Key Points -- Background -- Signs, Symptoms, and Physical -- Workup -- Neuroimaging -- Treatment -- Nonoperative Treatment -- Operative Treatment -- Surgical Pearls -- Common Clinical Questions -- Answers to Common Clinical Questions -- 27 Adolescent Idiopathic Scoliosis -- Key Points -- Definition -- Prevalence -- Clinical Evaluation -- Radiographic Evaluation -- Skeletal Maturity -- Management Overview -- Observation -- Bracing -- Physical Therapy -- Surgical Intervention -- Lenke Classification -- Instrumented Level Selection -- Common Clinical Questions. Answers to Common Clinical Questions.

Sommario/riassunto

"Handbook of Spine Surgery, Third Edition edited by renowned spine surgeons Ali A. Baaj, Praveen V. Mummaneni, Juan S. Uribe, Alexander R. Vaccaro, and Mark S. Greenberg reflects new techniques introduced into the practice since publication of the last edition, along with four-color images and videos. The book is organized into four parts and 66 chapters, starting with basic spinal anatomy. Part II covers the physical exam, electrodiagnostic testing, imaging, safety issues, intraoperative monitoring, bedside procedures, and the use of orthotics, pharmacology, and biologics. Part III discusses a full range of spinal pathologies and the final section concludes with 34 succinct procedural chapters"--
