Disciplina	633.1/1
Soggetti	Wheat Human-plant relationships
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Contents; List of Figures; List of Tables; Acknowledgements; List of Abbreviations; 1 Ingrained; 2 Reapproaching Human-Plant Geographies; 3 Becoming Wheat; 4 Spaces of Wheat; 5 Growing Wheat; 6 Mobility, Friction and Fungibility; 7 Wheat Becomes Quality Food: Bread, Pasta and More; 8 Transformation: Consistency, Craftability, In/visibility; 9 Wheat Futures; 10 Conclusion; Appendices; Bibliography; Index
Sommario/riassunto	Theoretically, this book develops new insights by bringing together human geography, biogeography and archaeology to provide a long term perspective on human-wheat relations. Although the relational, more-than-human turn in the social sciences has seen a number of plant-related studies, these have not yet fully engaged with the question of what it means to be a plant. The book draws on diverse literatures to tackle this question, advancing thinking about how plants

act in their worlds, and how we can better understand our shared worlds.
