Sommario/riassunto	Drawing from engrossing survivors' accounts, many never before published, The Minsk Ghetto 1941-1943 recounts a heroic yet little-known chapter in Holocaust history. In vivid and moving detail, Barbara Epstein chronicles the history of a Communist-led resistance

movement inside the Minsk ghetto, which, through its links to its Belarussian counterpart outside the ghetto and with help from others, enabled thousands of ghetto Jews to flee to the surrounding forests where they joined partisan units fighting the Germans. Telling a story that stands in stark contrast to what transpired across much of Eastern Europe, where Jews found few reliable allies in the face of the Nazi threat, this book captures the texture of life inside and outside the Minsk ghetto, evoking the harsh conditions, the life-threatening situations, and the friendships that helped many escape almost certain death. Epstein also explores how and why this resistance movement, unlike better known movements at places like Warsaw, Vilna, and Kovno, was able to rely on collaboration with those outside ghetto walls. She finds that an internationalist ethos fostered by two decades of Soviet rule, in addition to other factors, made this extraordinary story possible.

Sommario/riassunto	This book ('Type Index of Slovenian Folktales – Animal Tales and Fables') is the first of the comprehensive body of systematization of Slovenian folktales along the lines of the latest, revised edition of the Types of International Folk Tales by Hans-Jörg Uther (2004). It includes

Slovenian animal tales and fables that have been listed among the first 299 numbers of the international classification system. It contains archaic, internationally comparable material which was previously difficult to access and is now published for the first time in a comprehensive and systematic form. With the transfer of the latest scientific results to the Slovenian research sphere~additional studies and comments~and the application of the international classification system for the classification of material it greatly facilitates further development of the discipline while simultaneously including the Slovenian narrative tradition in a broader international context. Since each folktale type includes examples of folktales the book will also attract the attention of the general public.

Knjiga je prva iz obsežnega opusa sistemizacije slovenskih ljudskih pravljic po vzoru zadnje dopolnjene izdaje Mednarodnega tipnega indeksa pravljic (H.-J. Uther, The Types of International Folktales 2004).

Zaobjema slovenske živalske pravljice in basni, ki so uvršene med prvih 299 števil mednarodnega klasifikacijskega sistema. Prinaša doslej težko dostopno in arhaino mednarodno primerljivo gradivo, ki je tukaj prvi objavljeno v celoviti in sistematični obliki. S prenosom sodobnih znanstvenih dosežkov na slovensko raziskovalno področje, spremnimi študijami in komentarji ter aplikacijo mednarodnega klasifikacijskega sistema pri razvrščanju gradiva delo olajšuje nadaljnji razvoj vede, hkrati pa vključuje slovensko pripovedno izročilo v širši mednarodni kontekst. Posameznim tipom pravljic so dodani primeri pravljic, kar približuje knjigo tudi širši javnosti.
