Sommario/riassunto	"A companion volume to It is a New Kind of Diaspora. Taking up where that book leaves off, it traces some of the consequences of the emigration of German and Austrian psychoanalysts to London, particularly in the context of the British Psycho-Analytical Society's "Controversial Discussions". The first part of the book, "Tradition and Change" traces some general issues related to the Discussions, in particular drawing on documentary sources from the Archives of the British Psycho-Analytical Society. The second part focuses on one crucial issue in the Discussions - the differing interpretations formulated about the psychic life of babies during the first six months of life. Throughout this section, and the rest of the book, Dr Steiner constantly stresses the larger social and political contexts within which psychoanalysis exists. The last part examines the legacy of the

Discussions in the work of one of the most distinguished Kleinian analysts, Hanna Segal, and in particular her work on creativity and aesthetics."--Provided by publisher.

Sommario/riassunto

"Based on work in the anxiety-provoking and emotional environment of professional football, this book explores the effect that emotions have on the relationships and relatedness of team members; and, the struggles experienced in controlling and managing emotions by leaders and managers of teams. More specifically, this book explores the conflicts associated with the process of managing the boundary between what is inside and what is outside: between what is in the manager's mind and what is happening in the external environment."-- Provided by publisher.
