Lula So Far: An Interim Assessment -- NOTES -- SELECT BIBLIOGRAPHY -- INDEX
Sommario/riassunto	Luiz Inácio Lula da Silva's dramatic life story has captured the imagination of millions, and his progressive politics have brought hope and excitement to Brazil-and the world. This compelling work is the first major English-language biography of the metalworker who became president of Latin America's largest and most powerful country. In a clearly written, vividly detailed narrative, Richard Bourne describes Lula's childhood hardships in an impoverished family, his days as a revered trade unionist, and the strike movement that brought down Brazil's military dictatorship. The book chronicles Lula's campaigns for

the presidency, his first term in office beginning in 2002, a major corruption scandal, and his reelection in 2006. Throughout, Lula of Brazil connects this charismatic leader's life to larger issues, such as the difficulty of maintaining a progressive policy in an era of globalization. Brazil's contemporary history, parallels with other developing countries and other world leaders, the conservatism of Brazilian society, and other themes provide a rich backdrop for assessing the struggles, achievements, and failures of this major figure on both the Brazilian and the world stage.
