Sommario/riassunto	Volume 5, Manifest West Series, Western Press Books Serenity and severity form a classic Western dichotomy with many manifestations. Beautiful growth and renewal follow a terrifying and destructive forest

fire. Rain upon a hayfield can be interpreted as grace or judgment from above, depending on the season. The unpredictability of nature provides hikers with a breathtaking view one day and a life-threatening scenario the next. Yet the nature of the West does not only imply the outdoors. The people of the West encounter serenity and severity in all aspects of life, and this duality impacts their identity and shapes their lifestyles, outlooks, worldviews, and values. This year's collection includes political discussions, philosophical ponderings, and lighthearted humor that are all a part of life in the West. For the fifth volume of Manifest West, twenty-nine writers explore this theme, revealing the duality of Western life through many different narrative trails--including governed environment, overwhelming fires, hiking adventures, and the effect of location on family. Creativity and diversity come to this anthology in both content and form, with flash fiction joining Manifest West's standard genres of creative nonfiction, short fiction, and poetry. Their combined reflections enable us to see the intense relationship between humanity and nature; sometimes nature directs humans' lives, to their harm and to their benefit, and other times, humanity abuses the very environment it cherishes as its home. Authors bring their personal styles, voices, and experiences with life in the West to contribute to a balanced and unique interpretation of serenity and severity.
