Sommario/riassunto	"Engaging Parents in Adolescent Therapy aims to reach outpatient mental health professionals looking to effectively incorporate parents into their work with adolescents. The book incorporates clinical experiences with important research regarding addresses parents' motivations for seeking treatment for teens and the complexity of parent-adolescent relationships, while also focusing on issues such as rapport building, therapeutic boundaries, coping with trauma and high-risk behaviors, and addressing the role of social media in today's counseling and parenting relationships."--
