Sommario/riassunto

Challenging the standard narrative of Interwar International History, this account establishes the causal relationship between the global political and economic crises of the period, and offers a radically new look at the role of ideology, racism and the leading liberal powers in the events between the First and Second World Wars.

Sommario/riassunto

Do people know about God just by being human beings, or do they need special divine assistance, through the Bible and the church, before they can know anything about God? This book examines what the Bible itself says on the question, and considers its impact on our religious ideas.
