Descrizione fisica	1 online resource (xii, 244 pages)
Collana	The Gifford lectures for 1991
Disciplina	231.042
Soggetti	Natural theology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and indexes.
Sommario/riassunto	Do people know about God just by being human beings, or do they need special divine assistance, through the Bible and the church, before they can know anything about God? This book examines what the Bible itself says on the question, and considers its impact on our religious ideas.

Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	pt. I. A discourse-historical approach to the English native speaker -- pt. II. "Good" English and the "best" speakers : the native speaker and standards of language, speech, and writing -- pt. III. Language, nation, and race : of Anglo-Saxons and English speakers conquering the world.
Sommario/riassunto	The native speaker is one of the central but at the same time most controversial concepts of modern linguistics. With regard to English, it became especially controversial with the rise of the so-called "New Englishes," where reality is much more complex than the neat distinction into native and non-native speakers would make us believe. This volume reconstructs the coming-into-being of the English native speaker in the second half of the nineteenth century in order to probe into the origins of the problems surrounding the concept today. A corpus of texts which includes not only the classics of the nineteenth-century linguistic literature but also numerous lesser-known articles from periodical journals of the time is investigated by means of historical discourse analysis in order to retrace the production and reproduction of this particularly important linguistic ideology.
