Sommario/riassunto	James Mallory was an uncommon Southerner. Most inhabitants of the Old South, especially the plain folk, devoted more time to leisurely activities--drinking, gambling, hunting, fishing, and just loafing--than did Mallory, a workaholic agriculturalist, who experimented with new plants, orchards, and manures, as well as the latest farming equipment and techniques. A Whig and a Unionist, a temperance man and a peace lover, ambitious yet caring, business-minded and progressive, he supported railroad construction as well as formal education, even for girls. His cotton production--four bale

Sommario/riassunto

Since the Tokyo Sarin Subway Attack, the threat of chemical warfare agents has migrated from the battlefield to become a major concern for homeland security in the 21st century. While current fielded antidotes are able to mitigate acute high mortality arising from exposure to nerve agents, achieving effective neuroprotection in subjects with nerve agent induced prolonged seizures or status epilepticus is currently lacking.
