Sommario/riassunto	The Millennium Development Goals, adopted at the UN Millennium Summit in 2000, are the world's targets for dramatically reducing extreme poverty in its many dimensions by 2015?income poverty, hunger, disease, exclusion, lack of infrastructure and shelter?while promoting gender equality, education, health and environmental sustainability. These bold goals can be met in all parts of the world if

nations follow through on their commitments to work together to meet them. Achieving the Millennium Development Goals offers the prospect of a more secure, just, and prosperous world for all. The UN Mi.
