Autore	Nickel Felix
Titolo	Herstellung und Charakterisierung mechanisch flexibler organischer Solarzellen durch Flussigprozessierung
Pubbl/distr/stampa	KIT Scientific Publishing, 2014
ISBN	1000047609
Descrizione fisica	1 online resource (II, 137 p. p.)
Soggetti	Technology: general issues
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This document presents the development and optoelectronic analysis of a flexible electrode system. The focus is the application of all functional layers out of solution to enable a cost effective processing with large area print and coating techniques. Moreover, the mechanical stability of the electrode system and the complete solar cell is investigated by tensile tests.
