| Sommario/riassunto      | This book examines the charismatic Christian reformation presently underway in Botswana's time of AIDS and the moral crisis that divides the church between the elders and the young, apostolic faith healers. Richard Werbner focuses on Eloyi, an Apostolic faith-healing church in Botswana's capital. Werbner shows how charismatic "prophets"-holy hustlers-diagnose, hustle, and shock patients during violent and destructive exorcisms. He also shows how these healers enter into                                                                                                              |

prayer and meditation and take on their patients' pain and how their ecstatic devotions create an aesthetic in which beauty beckons God. Werbner challenges theoretical assumptions about mimesis and empathy, the power of the word, and personhood. With its accompanying DVD, *Holy Hustlers*, *Schism*, and *Prophecy* integrates textual and filmed ethnography and provides a fresh perspective on ritual performance and the cinematic.

## Sommario/riassunto

Heart Physiology and Pathophysiology, 4E, provides the foundation for the scientific understanding of heart function and dysfunction, and bridges the gap between basic cardiovascular science and clinical cardiology. This comprehensive text covers all the important aspects of the heart and vascular system. The most important and relevant disorders are presented, with emphasis on the mechanisms involved. The first three editions of this book developed a reputation as the leading reference in cardiovascular science for researchers and academic cardiologists. This recent edition has bee
