

1. Record Nr.	UNINA9911115401003321
Autore	Mendoza Cervantes Francisco
Titolo	A Problem-Oriented Approach for Dynamic Verification of Heterogeneous Embedded Systems
Pubbl/distr/stampa	KIT Scientific Publishing, 2013
ISBN	1000038209
Descrizione fisica	1 online resource (X, 168 p. p.)
Soggetti	Technology: general issues
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This work presents a virtual prototyping methodology for the design and verification of industrial devices in the field level of industrial automation systems. This work demonstrates that virtual prototypes can help increase the confidence in the correctness of a design thanks to a deeper understanding of the complex interactions between hardware, software, analog and mixed-signal components of embedded systems and the physical processes they interact with.
