

1. Record Nr.	UNINA9911115458303321
Autore	Heneka Jochen
Titolo	Prozessentwicklung eines industrietauglichen Verfahrens zur Fertigung von vereinzelt LIGA-Mikrobauteilen
Pubbl/distr/stampa	KIT Scientific Publishing, 2015
Descrizione fisica	1 online resource (VII, 211 p. p.)
Collana	Schriften des Instituts für Mikrostrukturtechnik am Karlsruher Institut für Technologie / Hrsg.: Institut für Mikrostrukturtechnik
Soggetti	Technology: general issues
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This work deals with the development of an industry suited process aiming on the fabrication (based on the LIGA technique) of near net shape, single microparts. Those microparts should lead to new innovative ideas and thus to successful products on the market.
