Sommario/riassunto

This book provides a comprehensive introduction to the management and dimensions of long-term care services, offering insights into the evolving landscape shaped by historical developments, policy changes, and the Affordable Care Act. It covers various care settings, including residential facilities, home-based services, hospice care, and international perspectives. Additionally, it explores management issues such as leadership, legal and ethical concerns, financing, risk management, and quality assurance. Designed for healthcare professionals, students, and policymakers, the book aims to enhance understanding of long-term care systems and their impact on aging, disability, and chronic health conditions. It emphasizes the integration of population health and diversity in care delivery while addressing challenges and opportunities in the field.
