Undated Astronomical Diaries -- Part 5. King Lists -- Part 6. The Antiochus Cylinder -- Appendix -- Bibliography.
Sommario/riassunto	This scholarly work provides translations and analyses of Babylonian chronographic texts from the Hellenistic period, offering insight into historical records, astronomical diaries, king lists, and other documents from ancient Babylon. It delves into topics such as the reigns of Babylonian kings, temple activities, land assignments, and the integration of Greek and Babylonian cultures during the Hellenistic era. The authors combine expertise in Assyriology, ancient history, and cuneiform studies to present a comprehensive resource for understanding Babylonian civilization and its historical context. Designed for researchers, students, and general readers, the book aims to bridge the gap between ancient Near Eastern studies and broader humanities disciplines, making ancient texts accessible to a wider

audience.
