Sommario/riassunto

The fourth issue of the yearbook History of Intellectual Culture (HIC) features a thematic section on the production of knowledge related to the Holocaust. The contributions focus on the circulation of knowledge via letters and other forms of written communication within and among survivor historical commissions after the Second World War with an emphasis on the interplay of gender and other differences. Although more women than men were involved in these efforts, women typically held subordinate roles to men and have largely been invisible in the historiography of these endeavors. This thematic section addresses this lacuna by exploring aspects of the "unseen labor" behind these documentation efforts that remain underexplored and marginalized in studies on the production, circulation, and history of knowledge, as well as of intellectual culture.

Sommario/riassunto	El proposito de este libro es analizar la evolucion de varias clases de adverbios y locuciones adverbiales que se caracterizan por haber adquirido funciones discursivas relevantes en las sucesivas etapas de su desarrollo historico: los adverbios de foco, los adverbios de topico y los adverbios y locuciones adverbiales modificadores de la enunciaci

y del enunciado. Se trata de formular hipótesis explicativas de cómo han surgido estas formas, de cómo se han configurado los distintos paradigmas en los que se integran, de exponer los procesos de cambio experimentados por estas unidades lingüísticas -con adquisición, pérdida o modificación de valores- y de determinar cuáles son los mecanismos que han favorecido su creación y extensión.
