Sommario/riassunto

When movie fans talk about their favorite films, they most often mention one or two particular scenes that they never tire of watching. This witty and engaging volume catalogs more than 500 of the most memorable scenes in movie history. Organized by theme, it recounts the best scenes featuring everything from accountants and adoption to whistling and windows. This diverting work proves an indispensable guide for anyone who has ever used a movie reference to illustrate a point or express their feelings.

Sommario/riassunto

This volume presents 18 IMF research studies on the causes and consequences of corruption, as well as how it can most effectively be combated to improve governance, increase economic growth, and reduce poverty. The authors examine how civil service wages affect corruption, the impact of natural resource availability on corruption, the impact of corruption on a country's income distribution and incidence of poverty, and the effect of corruption on government expenditures on health and education.
