

1. Record Nr.	UNINA9911131790203321
Titolo	Autoimmune disorders : symptoms, diagnosis, and treatment / / Maria E. Petrov, editor
Pubbl/distr/stampa	New York, : Nova Science Publishers, c2011
ISBN	1-61761-698-2
Edizione	[1st ed.]
Descrizione fisica	1 online resource (342 p.)
Collana	Immunology and immune system disorders
Altri autori (Persone)	PetrovMaria E
Disciplina	616.97/8
Soggetti	Autoimmune diseases Autoimmunity
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	""Contents""; ""Preface""; ""Chapter 1 Autoimmune Liver Diseases ""; ""Chapter 2 Immunopathological Events in an Experimental Autoimmune Kidney Disease and How Those Events Can be Terminated to Regain Tolerance to Self ""; ""Chapter 3 Hematopoietic Stem Cell Transplantation for Severe Autoimmune Diseases: Time for a Reappraisal ""; ""Chapter 4 Thyroid Arterial Embolization for the Treatment of Gravesa€? Hyperthyroidism ""; ""Chapter 5 New Targets and Approaches to Autoimmune-Induced Salivary Hypofunction"" ""Chapter 6 Systemic Lupus Erythematosus: Definition, Pathogenesis and Treatment Mariana Postal""""Chapter 7 Diagnosis and Pathogenesis of Neuropsychiatric Syndromes of Systemic Lupus Erythematosus (NPSLE) ""; ""Chapter 8 Cytomegalovirus-Induced Autoimmunity""; ""Chapter 9 BehAet's Disease: Symptoms, Diagnosis and Treatment ""; ""Chapter 10 Immunomodulators as Therapeutic Strategies for Managing Multiple Sclerosis E. W. Brenu""; ""Chapter 11 Premenstrual Syndrome: A Disease with an Autoimmune Component? Miranda A. Farage"" ""Chapter 12 The Primary Target Antigenic Site in Heymann Nephritis is the Renal Proximal Convoluted Tubulesa€? Brush Border Associated Zone of Cells """"Chapter 13 Dysregulation of Autoimmunity Caused by Silica Exposure: Fas-Mediated Apoptosis in T Lymphocytes Derived from Silicosis Patients ""; ""Chapter 14 Unusual Renal Localization of Vasculitis in SjA¶grenaa€?s Syndrome: A Clinical Case Report""; ""Index""

Sommario/riassunto

Autoimmune diseases arise from an overactive immune response of the body against substances and tissues normally present in the body. In other words, the body actually attacks its own cells. The immune system mistakes some part of the body as a pathogen and attacks it. The treatment of autoimmune diseases is typically with immunosuppression--medication which decreases the immune response. This book presents current research in the study of autoimmune disorders with a focus on autoimmune liver diseases; Graves hyperthyroidism; system lupus erythematosus; Behcet's disease; and Sjogren's syndrome.
