

1. Record Nr.	UNINA9911024051403321
Autore	Castanho Rui Alexandre
Titolo	Trends in Emerging Markets, Globalization, Economic Development, Entrepreneurship and Management Strategies as a Result of Cross-Border Cooperation
Pubbl/distr/stampa	MDPI - Multidisciplinary Digital Publishing Institute, 2025
Descrizione fisica	1 online resource
Soggetti	Development economics and emerging economies
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	As globalization advances, trends and societal shifts influence several economic and socioeconomic aspects. As cross-border cooperation has been increasing across various regions, this leads to market changes, both established and emerging, trading methods and management aspects. As a result, it is crucial to study the negative and positive changes on an economic and social level emanating from this phenomenon. The inter-relationship between international environments, transactions, and cooperation projects can transform economic and socioeconomic conditions, leading to more enabling and sustainable cities, societies, and regions. The results from new and stronger business networks and cluster environments created through cooperation projects, strategies, synergies, and transactions are already reshaping the socioeconomic panorama.

2. Record Nr.	UNINA9911141577803321
Titolo	Emerging avian disease / / Ellen Paul, editor
Pubbl/distr/stampa	Berkeley, CA, : University of California Press, 2012
ISBN	9786613520944 9781280116650 128011665X 9780520952201 0520952200
Edizione	[1st ed.]
Descrizione fisica	1 online resource (124 p.)
Collana	Studies in avian biology ; ; no. 42
Classificazione	SCI070040
Altri autori (Persone)	PaulEllen <1955->
Disciplina	636.5/089
Soggetti	Birds - Diseases Bird populations Ornithology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"A publication of the Cooper Ornithological Society".
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- CONTENTS -- CONTRIBUTORS -- FOREWORD -- CHAPTER ONE. Ecological Associations of West Nile Virus and Avian Hosts in an Arid Environment -- CHAPTER TWO. The Trans-Atlantic Movement of the Spirochete <i>Borrelia garinii</i> : THE ROLE OF TICKS AND THEIR SEABIRD HOSTS -- CHAPTER THREE. Parasitism in the Endemic Galápagos Dove (<i>Zenaida galapagoensis</i>) and Its Relation to Host Genetic Diversity and Immune Response -- CHAPTER FOUR. Prevalence and Effects of West Nile Virus on Wild American Kestrel (<i>Falco sparverius</i>) Populations in Colorado -- CHAPTER FIVE. First Example of a Highly Prevalent but Low-Impact Malaria in an Endemic New Zealand Passerine: PLASMODIUM OF TIRITIRI MATANGI ISLAND BELLBIRDS (<i>ANTHORNIS MELANURA</i>) -- CHAPTER SIX. Prototype System for Tracking and Forecasting Highly Pathogenic H5N1 Avian Influenza Spread in North America -- CHAPTER SEVEN. Immunophenotyping of Avian Lymphocytes: IMPLICATIONS AND FUTURE FOR UNDERSTANDING DISEASE IN BIRDS -- CHAPTER EIGHT. Zoonotic Diseases: WHAT ORNITHOLOGISTS AND BIRD BANDERS SHOULD KNOW -- INDEX -- STUDIES IN AVIAN BIOLOGY. Complete Series List

In this volume, new human disease pandemics, arising from animals stimulated by ongoing environmental change, demonstrate the value of ornithological research into avian diseases. A group of 29 researchers addresses a diverse set of topics, including the evolutionary and ecological aspects of the host-vector systems, the effects of genetic variation, introduction success and vector ecology, evolution of resistance and virulence of pathogens, and the effects of changing geographic distributions. In addition to empirical studies under field conditions, the authors present predictive models to assess the movement and potential impact of these diseases. Other chapters delve into the potential impacts of pathogens and the key role of biosurveillance and documenting impacts of disease on bird populations.
