Sommario/riassunto

""Pam Jefferies and Jim Battin provide a very thoughtful, step by step approach to create a collaborative health care simulation consortium. It is inspiring to witness many stakeholders come together in Southeast Indiana to effectively educate and train people entering the healthcare profession (and current nurses, doctors, and allied health professionals)! [This book] isn't just about health care and simulation it offers a terrific road-map for any community, region, or industry focused on developing human potential as the means to economic prosperity and quality of life!"" . -- John Burnett.
