Nota di bibliografia	Includes bibliographical references (p. 105-110).
Nota di contenuto	Disability and genetic choice -- Parental choice and what we owe to our children -- Human values and genetic design.
Sommario/riassunto	Genetic and reproductive technology now offers us the possibility of choosing what kinds of children we do and don't have. Should we welcome this power, or should we fear its implications? The renowned moral philosopher and best-selling author Jonathan Glover suggests how we should try to deal with this urgent problem. Surely parents owe it to their children to keep them free from disabilities? But there is a powerful new challenge from people who have these conditions: how

do we justify trying to avoid bringing people like them into being?
Jonathan Glover also examines the emotive idea of 'eu
